USMWF is a national support group made up of emphatic families who have been there and understand the emotions and questions you may have regarding the loss of your family members.

We know and understand the devastation which takes place in the mind, body and soul and we strive to help you and others from having to go through both the grieving process and investigative process alone. It's important that you know you are not alone.

## USMWF & OSHA ALLIANCE:

On April 28, 2022, Workers' Memorial Day the U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) and United Support and Memorial For Workplace Fatalities (USMWF) joined together to form a national Alliance to raise awareness of workplace safety and health issues and more. ## FACE CAMPAIGN TRIBUTES:

How many words does it take to peer into the eyes of tragedy or feel the heartache and pain that is set in motion after our loved one was lost? We have found a picture is worth a thousands words. USMWF strives to honor, remember and recognize all of our fallen workers in our multiple tributes.

The "Face Campaign" was launched January 2009 and is intended to give workplace fatalities a face, gain awareness and educate workers, employees, organizations and our government. More Info at: [www.usmwf.org/send-one.html](http://www.usmwf.org/send-one.html)

## ABOUT US:

USMWF established in 2007 and is the only grassroots, family based, national, not-for-profit organization that offers support, guidance and resources to families that have been affected by work-related-incidents, diseases and illnesses. We understand first-hand the devastation that takes place in the mind, body and soul after such a tragic, unexpected loss. Recognizing the overpowering emotions one has during the stages of grief. It is important that no one should feel alone during these times. We strive to be the voice of change preventing similar incidents from affecting others.

## SUPPORTING & HONORING:

Each day over 15 families receive the horrific call that their loved one were fatally injured due to a preventable work related incident. Thousands of family member victims are thrown into the unforeseen reality of grief made of the rollercoaster ride of pain, suffering and inconvenience. Many deal with the financial burden, while trying to search for the many unanswered questions of the incident that forever changed their life and do not know where to go to receive the answers and closure they deserve. Through our research we have found that the work incidents, illnesses and diseases are preventable and are happening too often and the voices of such tragic losses must be heard to make a difference and help each worker go home to their family after their shift.
