By: Davie Ball, Daughter

My name is Davie Ball and I am 16 years old. I lost my dad on January 20, 2014 when he was killed in a work related incident at the International Nutrition Plant in Omaha, NE. I have no words to explain how I feel about losing my dad. I just wish he didn't have to die like that. It's just so horrifying to see these things happen all the time. I was so hurt and scared when I found out about what happened to my dad, it's been over a year since my dad died and I still feel like I'm lost and don't know what to do anymore. And now that he is gone he won't be here to see me graduate from High School and College. He won't be here to walk me down the aisle when I marry. He won't be here to see me succeed in life. Every time my dad went to work he did what he was supposed to do, but I feel like the employer didn't follow up what they were supposed to do for the safety of their employees!!!

My dad was such a nice guy and had no enemies now he's gone. But, I'm not the only one who lost a loved one and we have all these unsafe jobs and so far out of all the people that died in a workplace. They don't do anything to make it safer. That's all we want, so it doesn't happen as much as it has been. But, I see the company has rebuilt itself and is moving on, when I have to live with the loss of my father for the rest of my life.
